

Dear Parents and Guardians,

Our class will soon be starting a unit on immigration. We will focus on Chinese immigrants, using the PBS documentary **BECOMING AMERICAN: THE CHINESE EXPERIENCE**, but our discussion will include other immigrants as well. The goal is to develop appreciation and respect for our country's immigrant populations and our cultural diversity.

I encourage you to watch **BECOMING AMERICAN: THE CHINESE EXPERIENCE** with your children, ask your children about their work on this unit, and talk to them about your own family origins, customs, and traditions.

At the end of the unit I would like students to have an opportunity to interview parents who are first- or second-generation immigrants about their experiences. If you would like to be one of our interview subjects, please get in touch with me. For your convenience a tear-off is below.

Please feel free to contact me with any questions or suggestions about this upcoming unit.

Sincerely,

---
