Introductory Activity

After reading the document *We Shall Go To America*, please answer the first two questions, in your journal:

1) Why does the man advocate that people move to America? Use specific examples from the text.

2) What opportunities did America offer to immigrants in the past? How about today? Use examples to support your statements. These can be personal experiences, those of your family and friends, or those you may have heard about from newspapers, magazines, or television.
